MUNITIONS

LARGE CALIBER

OVERVIEW

Crew training is seamless, and cost-effective, with the ballistically matched (up to 4,000m), C72 and C109A1 Training Practice (TP-T) rounds. The 105mm SH/P-T C72 has improved spotting capability to provide impact signature and ballistic correction. The 105mm SH/P-T C109A1, an inert version of the C72, has the same ballistic trajectory providing proficient and combat-ready training.

CHARACTERISTICS C72 / C109A1

Cartridge Weight	21.6kg
Shot Weight	11.26kg

COMPONENTS

Tracer	C5
Primer	C15A2
Cartridge Case	C6
Propelling Charge	M1 Type 1

BALLISTICS

Muzzle Velocity	740 m/s
Range	Ballistic match with M393 A1 or A3 up to 4,000m
Dispersion	Within 0.3 mil S.D.
